16:30-17:00 pm Feedback and certificates

Target audience:

All clinicians interested in Point of Care Ultrasound, including ACPs and PAs. Acute and GIM trainees and IMTs.

Objectives of the Course

- 1- Understand the physics of the USS machine and which probe should be used for each procedure.
- 2- Establish your skills to deliver a focused bed-side US study in the unwell patients. Focus on Chest, abdominal and vascular Examination.
- 3- Learn how to access difficult veins using USS scanning.
- 4- Get your portfolio signed for the first 5-6 scans, so you can get along with the rest of the logbook easily afterwards.

Course Fees: 300 pounds
